- Priyamwada Hinge (PT)
- Dr. Shikha Paasi (PT)
- Dr. Pratiksha Kulkarni (PT)

World Geriatric Day which was celebrated on 3rd October 2022 by TMV Indutai Tilak College of Physiotherapy, pune. The day's celebration was marked by the college students and faculty visit to an old age home situated at Narhe, Pune. The old age home was named as 'Golden Sky Foundation'. The foundation was a home to around 20 residents from the age 40 years and above, consisting of healthy elders along with physically challenged elders. The management of the foundation gave us a warm welcome followed by an one on one interaction with each resident of the old age home. It was a good experience in learning the life stories of the elderly residents.

Post the resident interaction, the physiotherapist of the foundation interacted wonderfully with the students of the college and provided insights of the future of physiotherapy in India and abroad. And the programme was commenced.

Overall the visit and the resident interaction was well appreciated by the students.
