MASTER OF PHYSIOTHERAPY

Aim

The Master of Physiotherapy (specialty) Programme is directed towards rendering competency in knowledge, skills and research related to advance physiotherapeutic skills especially related to speciality clinical fields to enhance professional Physiotherapy Practice, Education and Research, in line with global standards

Objective

To offer specialized and high quality knowledge and experience in the field of Physiotherapy in the domains of Musculoskeletal sciences, Neuro Sciences, Cardiovascular and Respiratory Sciences and Community Based Rehabilitation Physiotherapy through varied exposures in Orthopedics, Surgery, Medicine, Gynecology, Neurology, Pediatrics, Intensive Care Unit, etc.

Introduction

"A Physician adds years to life and a physiotherapist adds life to years". Physiotherapy is an essential core health service. Physiotherapists are professionals who lead in the promotion, improvement and maintenance of health and well - being of patients.

Master of Physiotherapy is a two year full time program providing educational expertise & skills in problem based learning, Rehabilitation and patient care & management. The learning is enhanced during regular clinical postings where students are given platform to learn & treat variety of patients under supervision & expert guidance. Tilak Maharashtra Vidyapeeth college of Physiotherapy is established with well equipped OPD with good patient in flow. The OPD has advance exercise therapy excellent equipments & modern electrotherapeutic equipments. The college has well established musculoskeletal, cardiopulmonary, Neuro, Community, electrotherapy & exercise therapy laboratories with all standard equipments to provide ample practical exposure to the students. The faculty comprises of well qualified, competent & enthusiastic teachers, who are always focused towards better performance & knowledge imbibitions in the students. Thus, overall Tilak Maharashtra Vidyapeeth Department of Physiotherapy has well integrated programme to bring a best learning experience in physiotherapy and to provide qualified physiotherapists to the society.

Course outline

The Masters' degree in Physiotherapy is a full time programme consisting of classroom teaching, self academic activities and clinical postings, with self directed evidence based practice and research. In the first year theoretical basis of physiotherapy is refreshed along with research methodology, biostatistics & teaching technology in the form of workshops and modules. The students have to submit certificate for completion of compulsory module related to professional ethics, research methodology and teaching technology within the first six months of admission. The students are rotated in all areas of clinical expertise including four months of allied postings and remaining months of specialty postings during this period. They are required to choose their study for dissertation and submit a synopsis within the first 4 months. They are required to complete and submit their dissertation as per university notification prior to exam. The learning program includes seminars, journal reviews, case presentations, case discussions and classroom teaching. Some of the clinical postings may be provided at other reputed centers in the country in order to offer a wider spectrum of experience. The students are encouraged to attend conferences, workshops to enhance their knowledge during the course of study. University examinations in theory and practicals will be held at the end of second year.
