1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?

Feedback Obtained

The Vidyapeeth has a very effective and robust feedback mechanism. The Vidyapeeth understands importance of effective feedback both positive and negative, from its stakeholders, in the process of making some important decisions. Regular feedbacks at specific intervals are collected from various stakeholders, at the specific levels. Systematic analysis of the feedback is done. The Vidyapeeth offers autonomy to HoDs to implement some suggestions at the departmental level. Feedback received regarding academics for revision of syllabus, change in structure of syllabus, introduction of new programs/courses, etc. are forwarded to Academic Council through the Board of Studies, for discussion and appropriate decision. The issues or suggestions related to administration such as increase in the field visits and MoUs regarding that are forwarded to Administrative officer, Finance Officer and Registrar. All academic and administrative proposals are forwarded to Board of Management, the Apex Body of the Vidyapeeth. The decision from BoM is considered as final and implemented after BoM's approval. Alumni and parents also give their valuable suggestions to bridge the gap between industry and academia. Based on their suggestions, management takes the necessary decision.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Mentoring is an intrinsic process at the department of Management. This year we have launched a new concept in the department which will progress from the level of Mentoring to the stage of incubation and guidance for any budding entrepreneurs that we have in our department. The Department of Management has launched the Business laboratory this year. The laboratory aims to provide ample reading and research material to the students. The laboratory will act as a research facility where students will be provided journals, e-journals, magazines, annual reports, business plans and other relevant published material. Going further, we aim to provide the facility of an incubation centre in this laboratory. Students with an entrepreneurial mindset often encounter several hurdles in their path due to lack of proper guidance and scarcity of correct knowledge. We aim to provide the initial guidance and nurturing that is needed for these students to convert their ideas into reality. As we progress, students will be able to access video case studies, tutorials on various aspects of entrepreneurship and startup organizations. The department has also assigned a Mentor for all students in the department. The Mentor will guide the students in academic and professional activities. The Mentor will be monitoring the academic progress of his/her mentees and will take the requisite action in case a need arises.
