

**Onyinye Deoma Nwamaka Madumere (from Nigeria)**

**M A SOCIOLOGY student**

In the course of running this programme, I have had the privilege of having five thorough and motivating teachers teach me and I must emphasize in English Language contrary to what some of my friends experience in other schools here in Pune.

These wonderful teachers with great and innovative ideas brought in interesting insights into this course that increased my interest in Sociology, We have had to watch a lot of documentaries on evolutions, Revolutions, History and culture of certain races and people around the world. We have also had the privilege of having experts in different fields of research come in to add to our knowledge of various topics on Research Methodology.

I had the privilege of sharing a bit of Prof. NgugiWa’Thiongo of Kenya, a great novelist and Dr. Chinua Achebe, whose books we read way back my college days. I never knew that they were sociologists in their expression of views in their books which led to their persecutions.
